Support Services

**Legal and Corporate Support Services** are designed for the needs of high-volume transaction where accuracy and fast turnaround timing are key factors to success. Our clients range from Professional Services Providers, Multi-National Corporations, and Government Departments. Servicing clients of such a nature requires a specialised team and backup support that will ensure the clients' legal, compliance and corporate needs are addressed in a tactful and consistent manner.

## Key Services

### Corporate Governance and Secretarial Services

We help corporations to streamline their corporate governance processes and outsource their governance and secretarial management to us with confidence in respect of the following areas:

- Setting up and winding up your business
- Obtaining registration, licences and permits for your business
- Managing corporate governance and restructuring of your company or its subsidiaries
- ASIC | ATO | AUSTRAC | other government body filings
- Conducting corporate due diligence processes

### Legal and Professional Administrative Support

General administration tasks, billing and attending to paralegal tasks. We also provide the Backoffice support for each area of practice.

### Other tailored solutions

We tailor solutions to your requirements and provide support for the client projects.

# Our Team

## Global Reach
